Name of the Activity: Seminar Series

Title of the event: Journey with Mathematics

Day & Date: Thursday – Saturday & 21st – 23rd July, 2022

Time: 9.00-10.00am

Mode: Offline

Venue: K N V Sastri Auditorium

Details of Resource Persons:

Sl. No.	Date	Name of the Speaker	Title of the talk
1	21 st July 2022	Venugopal T V	Mathematical Applications in Geospatial Technology
2	22 nd July 2022	Narayani R Shankar	Broadcast chromatic numbers in graphs
3	23 rd July 2022	Venugopal R	Mathematics behind Meteorology

No. of Participants/ Beneficiaries: 120

Brief summary of the activity:

As a part of golden jubilee celebration the department of Mathematics organized three days Mathematics seminar series “ Journey with Mathematics” from 21st – 23rd July 2022 at 9.00-10.00am in K N V Sastri Auditorium for I,II and III year B.Sc. Mathematics students.

Day 1:

The speaker of the event Shri. Venugopal T V, CEO of Bharatha Bhoomi, addressed the gathering. He gave a glimpse of all basics required to study a map i.e. the point, lines and polygons. He also, highlighted on the importance of longitude and latitude using the satellite maps and scaling a map. He demonstrated through free and open source software QGIS about the geographic location, which allows the users to analyze and edit spatial information, in addition to composing and exporting graphical maps. The shortest distance path in maps was explained through graph theory. It was a great learning for the mathematics students which laid the basic understanding of google maps, uber, ola maps etc. He concluded the with the job opportunities having learnt QGIS and Mathematics.

Day 2:

The event the Speaker was Smt. Narayani R Shankar who spoke about 'Broadcast chromatic Numbers in Graph'. Firstly she started with the famous "seven bridges of Konigsberg problem" in graph theory, which are mathematical structures used to model pair wise relations between objects. The application of graph theory in the field of chemistry, computer science, social media like facebook, tweeter, instagram and four-color problem was demonstrated. The smallest number of colors needed to get a proper vertex coloring is called the chromatic number of the graph. The minimum order of a broadcast coloring is called the broadcast chromatic number. The chromatic number and broadcast chromatic number was illustrated through plantation of herbs, shrubs and trees in the field. The session was graced by our beloved Principal Dr.Shashikala.

The importance of the date 22/7/22 as pi approximation day and palindrome date was also highlighted and celebrated by distribution of sweets at the end of the session.

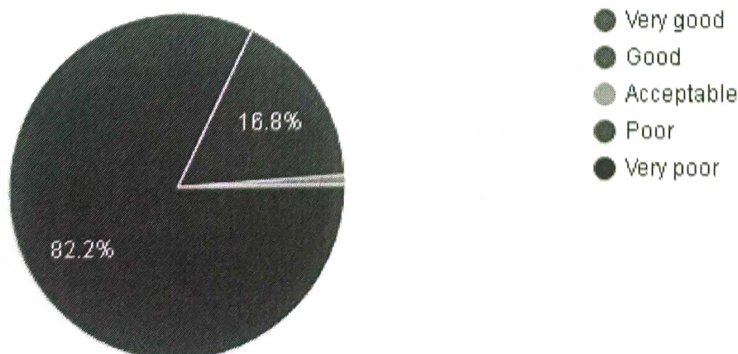

Day 3:

The speaker of the event was Venugopal.R, Meteorologist, Meteorology department, palace road, Bengaluru gave a talk on "Mathematics behind Meteorology". He gave a glimpse of the use of science and mathematics in the study of meteorology and forecast. He also illustrated the use of mathematical modeling in detecting weather conditions. Every solution to a problem is based on how it was handled in the past and what are parameters affecting it at the present moment. Based upon the information available we can estimate and present the facts as a probability. Everything around is composed of maths. There is nothing we can do without it was the take home for students. Finally, the speaker also concluded with the upcoming openings in metrology department for underground students. The session was graced by Dr. Annadanesh, Administrator officer who also added to the fact the importance and role of Mathematics in literature by quoting the poets of Girish Karnad and D R Bendre.

Feedback analysis:

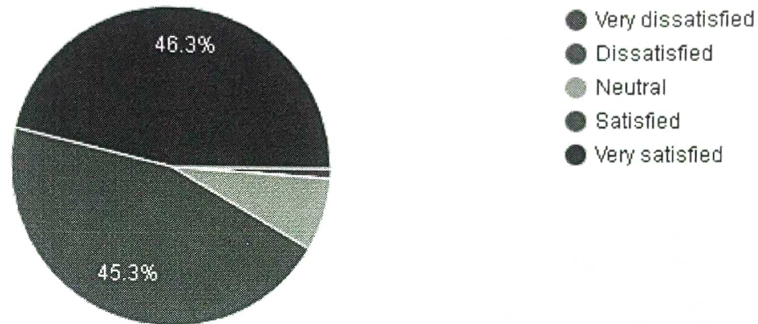

Day 1

How would you rate the organization of the event?

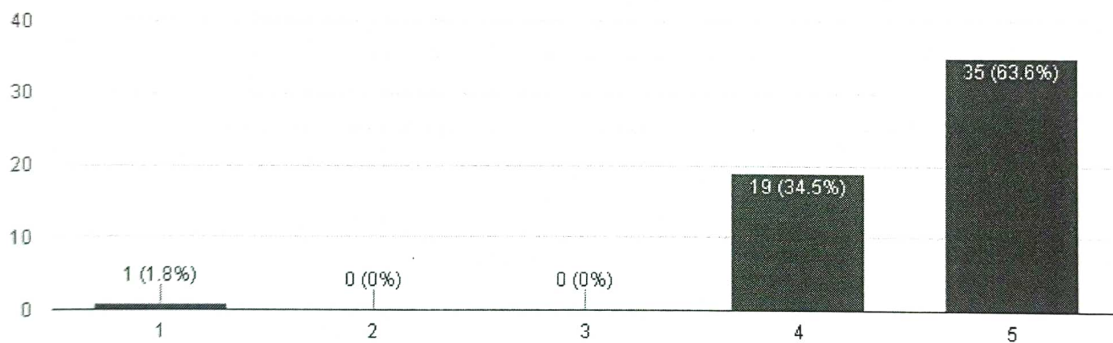

Day 2:

Overall, how satisfied were you with the event?

Day 3:

Considering your complete experience at the event, how likely are you to recommend our future events to your friends?(Consider 1 to be least)
